ARCHIOL COMPETITIONS

INTERNATIONAL DESIGN COMPETITION

MOBILE H O M E

OCT - DEC
2023

Introduction

Mobile Home Architecture Design Competition challenges architects, designers, and creative thinkers to reimagine the concept of mobile homes and create innovative designs that redefine the way we live, work, and interact within these compact and flexible spaces. The competition aims to explore sustainable, functional, and aesthetically appealing solutions that can address the evolving needs of modern society while considering mobility, adaptability, and affordability.

Objective

1. **Redefine Mobile Living:** Participants should explore ground breaking architectural designs that challenge traditional notions of mobile homes, pushing the boundaries of creativity and functionality.
2. **Sustainability and Efficiency:** Designs should incorporate sustainable practices and technologies, promoting energy efficiency, waste reduction, and environmentally conscious materials.
3. **Flexibility and Adaptability:** Mobile homes should be designed to accommodate various spatial configurations, allowing for flexible living arrangements, adaptability to different environments, and the changing needs of residents.
4. **Connectivity and Technology Integration:** Integration of smart technologies, innovative connectivity solutions, and efficient space utilization should be considered to enhance the overall living experience within the mobile home.
5. **Aesthetics and Emotional Well-being:** Participants should focus on creating visually appealing and emotionally comforting spaces that promote well-being, happiness, and a sense of home.

Competition Guidelines:

1. Designs should be adaptable for mobile transportation, considering size and weight restrictions, as well as transportation safety requirements.
2. Participants are encouraged to explore new construction methods, materials, and technologies that contribute to sustainability and energy efficiency.
3. Entries should include floor plans, elevations, sections, and perspectives to provide a comprehensive understanding of the design.
4. Each participant or team may submit only one entry.

Evaluation Criteria:

1. **Design Innovation:** Uniqueness, creativity, and originality of the concept.
2. **Functionality and Practicality:** How well the design meets the requirements of a mobile home and provides a comfortable living experience.
3. **Sustainability and Energy Efficiency:** Integration of sustainable design principles, energy-efficient systems, and materials.
4. **Aesthetics and Emotional Appeal:** Visual impact, beauty, and the ability to create an emotionally satisfying living environment.
5. **Technical Feasibility:** Practicality of construction, mobility, and adaptability of the design.
