INTRODUCTION

Welcome to the future of architecture and design! Archiol Competitions is thrilled to announce the fourth edition of our ground-breaking competition, "Home of the Next Century: Home2124." In this exciting event, we invite architects, designers, and visionaries from around the world to join us in reimagining the concept of a home for the year 2124.

The world is evolving at an unprecedented pace, and so are our lifestyles, technology, and environmental concerns. The challenges and opportunities of the 22nd century call for fresh, innovative solutions. "Home of the Next Century: Home2124" is more than just a competition; it's a platform for creative minds to envision the future of residential living.

As we stand on the brink of the next century, we must consider how homes will adapt to the changing needs of society. With issues like climate change, urbanization, and technological advancements at the forefront of our minds, it's time to design homes that are not just shelters but hubs of sustainability, innovation, and comfort. This competition is an invitation to think beyond the conventional and explore the uncharted territories of architectural design. Participants are encouraged to push the boundaries, challenge preconceptions, and create visionary concepts for homes that will define the 22nd century. "Home of the Next Century: Home2124" is a chance for you to contribute to a vision of the future that prioritizes sustainability, functionality, and beauty.

Join us on this remarkable journey to redefine the very essence of a home. Let your creativity and innovation shine as we collectively imagine the homes that will shape the lives of generations to come. "Home of the Next Century: Home2124" is your opportunity to leave a lasting legacy in the world of architecture and design.

OBJECTIVE

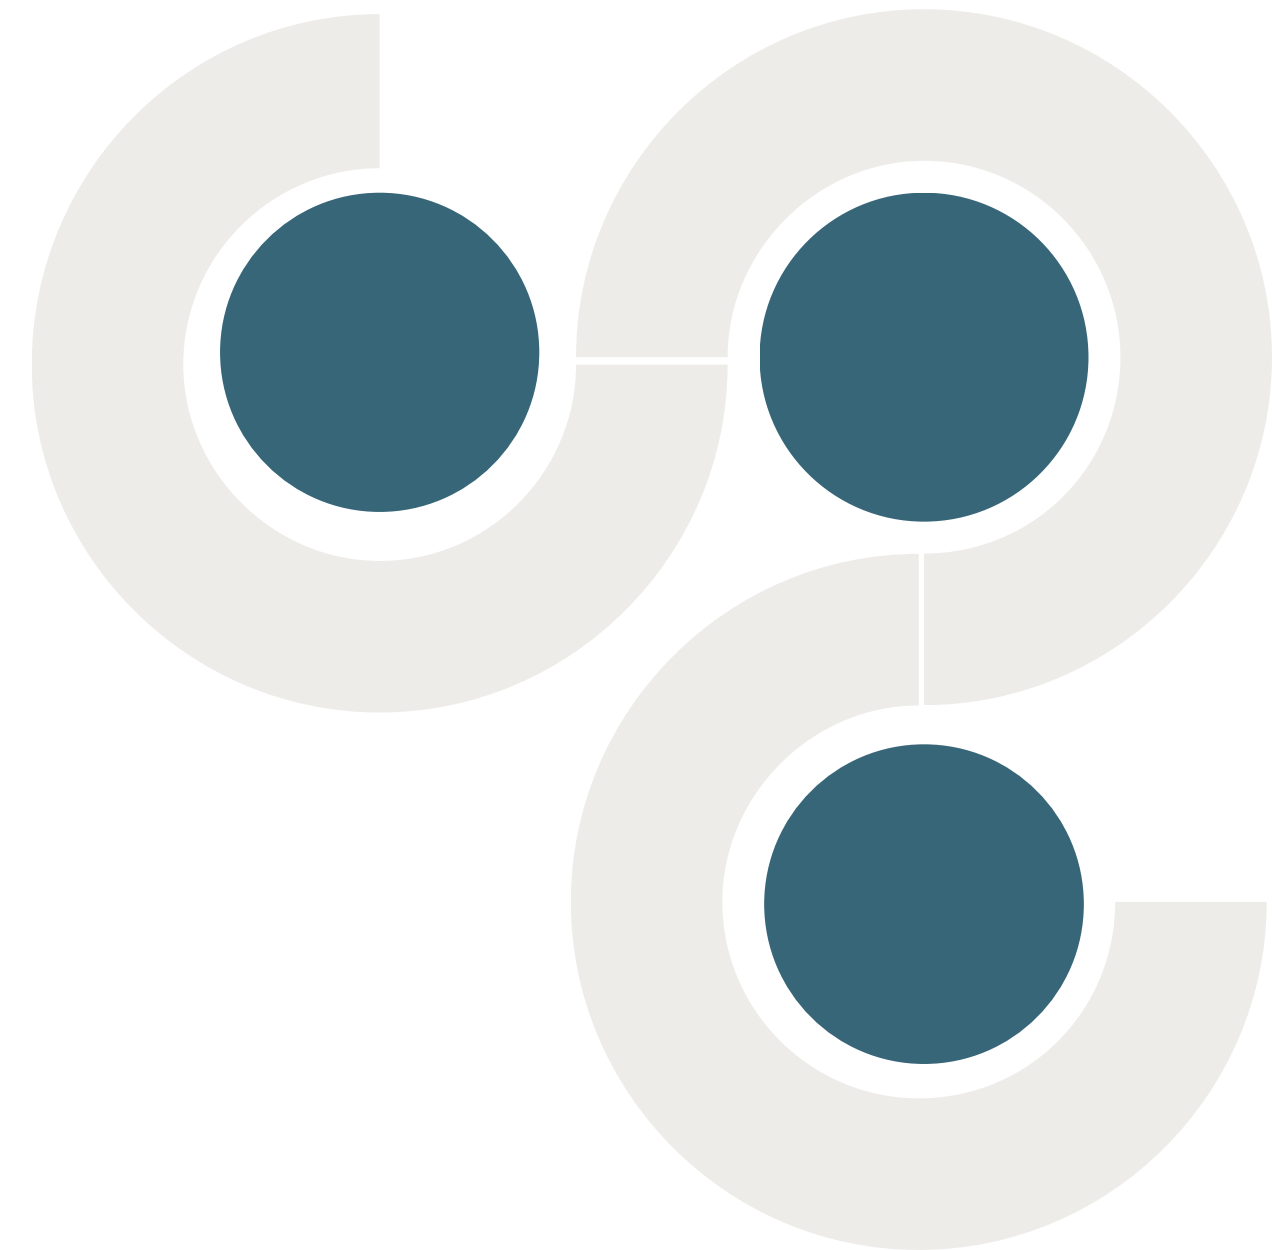

The objective of this competition is to challenge and inspire architects, designers, and visionaries to redefine the future of residential architecture. With a focus on innovation, sustainability, and adaptability, this competition invites participants to envision and design the ultimate homes for the year 2124.

BUILDING PROGRAMME

01

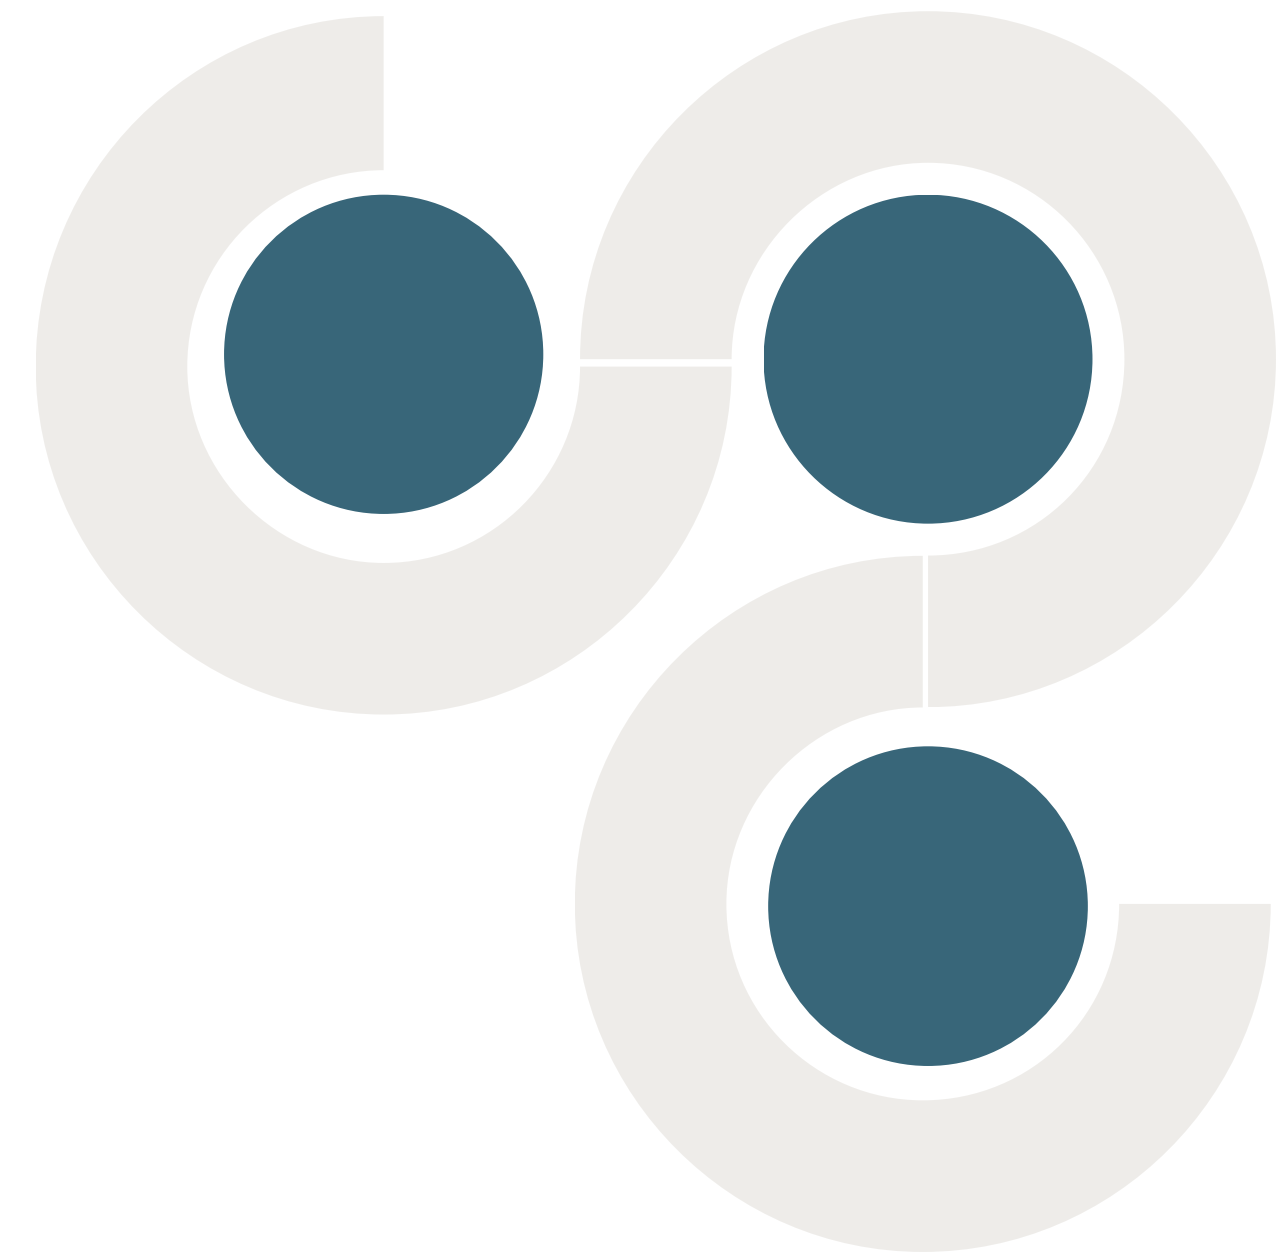

Participants are tasked with designing a residential dwelling for the year 2124. The dwelling should cater to the needs of a family, considering elements such as living spaces, bedrooms, kitchen, bathrooms, and any other essential components of a contemporary home. Additionally, participants are encouraged to explore and incorporate cutting-edge technologies, automation, and spaces that promote well-being and connectivity within the family unit.

SITE

02

The site selection is at the discretion of the participant. You may choose any location, be it urban, suburban, rural, or even a site that reflects a unique, futuristic environment. Please provide detailed site information, including its geographical, climatic, and topographical conditions, as well as any specific contextual factors that influenced your design.

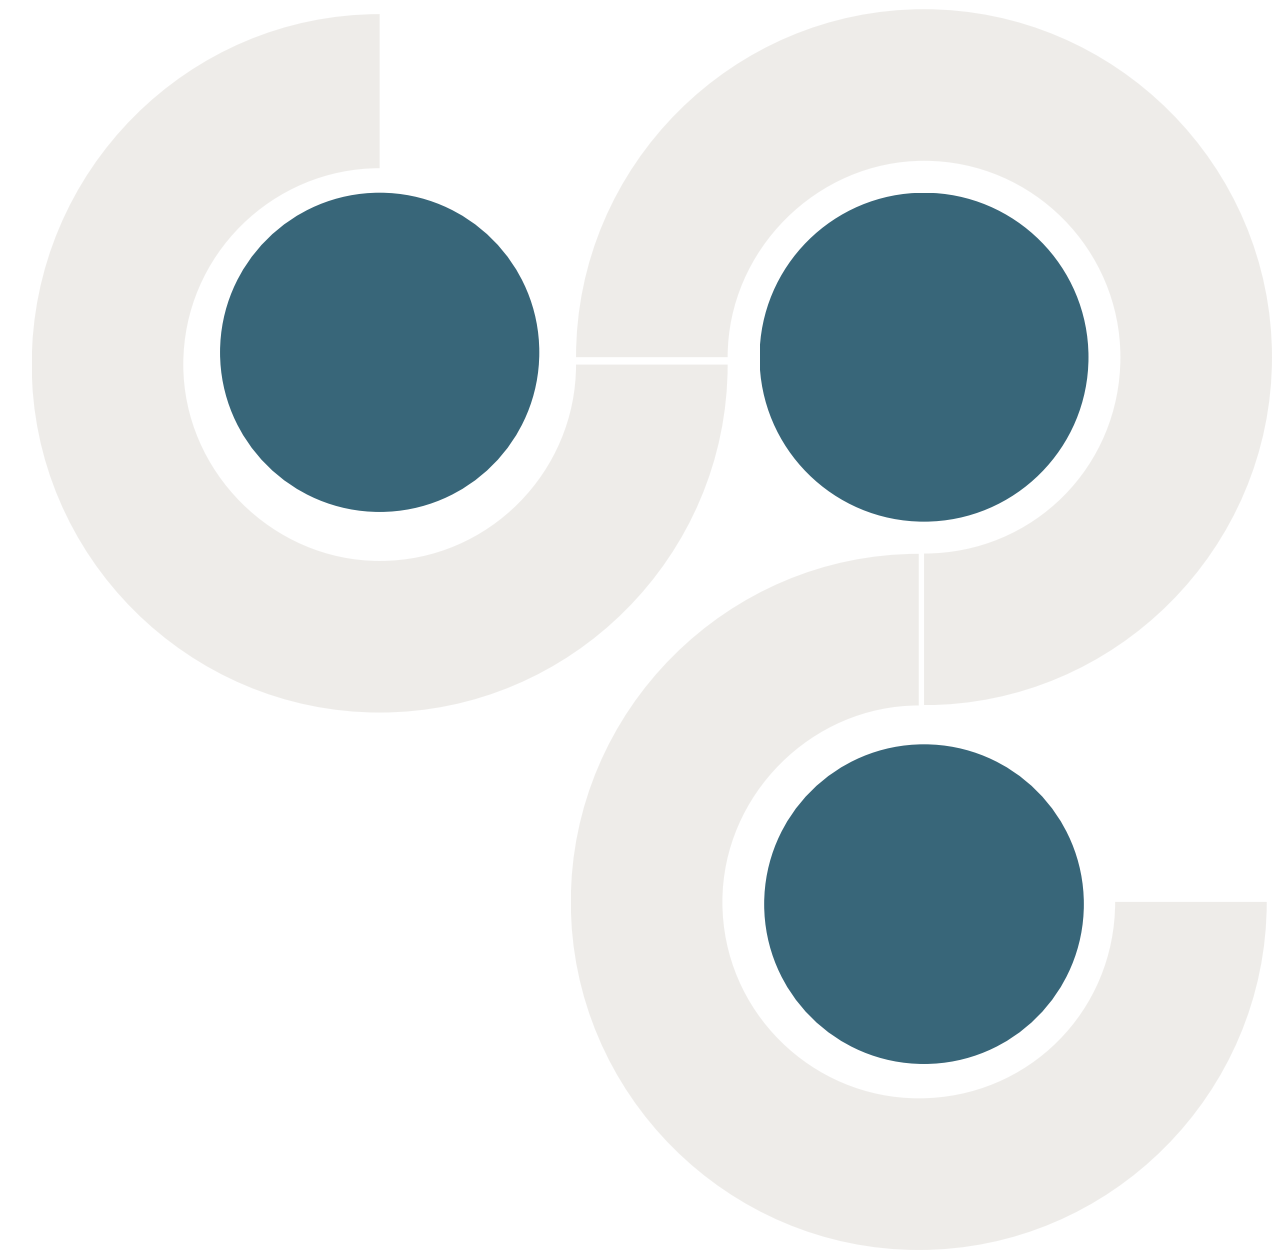

FLEXIBILITY & SUSTAINABILITY

03

Innovative thinking is highly encouraged. Participants have the freedom to experiment with architectural styles, materials, and spatial configurations. The competition promotes an open-minded approach to design, allowing for creativity while keeping practicality and functionality in mind.

Sustainability is a key focus of this competition. Designs should be environmentally responsible, energy-efficient, and designed to minimize the carbon footprint. Consider renewable energy sources, water conservation, and the use of eco-friendly materials. Incorporate elements that adapt to changing climate conditions and promote sustainable living.

REQUIREMENTS

- **Conceptual Design:** Present a detailed conceptual design of the residential dwelling. This should include floor plans, elevations, sections, and any other necessary architectural drawings.
- **Sustainability and Environmental Considerations:** Explain how your design incorporates sustainability and environmental considerations. Provide information on energy-efficient features, use of renewable energy sources, waste management, and any other eco-friendly aspects.
- **Innovation and Technology:** Describe the innovative technologies and smart solutions integrated into your design. How do these technologies enhance the living experience and address future needs?
- **Site Analysis:** Present a comprehensive analysis of your chosen site, including geographic and climatic factors that influenced your design.
- **Renderings and Visualizations:** Provide high-quality renderings, visualizations, and any other graphical representations that help convey the design's aesthetics and functionality.
- **Narrative:** Include a narrative explaining the inspiration and concept behind your design. Describe how your design caters to the needs and aspirations of a 22nd-century family.
- **Design Statement:** A design statement summarizing the key features and innovations in your design.

SUBMISSION GUIDELINES

Presentation Board Numbering:

- Number your presentation boards (JPG/JPEG format) sequentially as 01, 02, 03, ensuring clarity and order in the visual representation of your design concept.

Summary Document Naming:

- Save your design description in a document file (DOCX/DOC format) and name it "Design Description." This document should provide a concise yet comprehensive overview of your architectural concept.

Zip Folder Creation:

- Compile all your presentation boards and the "Design Description" document into a single zip folder for ease of submission.

Zip Folder Naming:

- Name your zip folder using your assigned participation code. This ensures accurate identification and association of your submission with your team or individual entry.

Submission Platform:

- Utilize Google Drive as the submission platform. Upload the zip folder containing your presentation boards and "Design Description" document to your Google Drive account.

Accessibility of Google Drive Link:

- Ensure that the shared Google Drive link is accessible. Inaccessibility may result in the non-consideration of your submission. Double-check permissions to guarantee seamless access for the competition organizers.

Email Submission:

- Submit your entry by sending an email to submit@archiol.com. Include the shared Google Drive link in the body of the email. It is crucial to comply with this step for your submission to be valid.

Email Subject Format:

- In the subject line of your email, clearly state the competition name followed by your participation code. This standardized format streamlines the organization's handling of numerous submissions.

Email Body Content:

- The body of the email should contain the shared Google Drive link along with essential information, such as the name of the team leader. Additionally, attach the payment receipt or screenshot to verify the completion of the registration process.

JURY

We collaborate with leading architects, designers, and academicians of international repute to participate as jury members in our competitions

ELIGIBILITY

The competition is open to architects, designers, artists, and creative thinkers from around the world. Participants can enter as individuals or in teams (max. 4 members in one team). Interdisciplinary teams are also encouraged, as the competition encourages a holistic approach to design.

FAQ

1. Who can participate in the competition?

- The competition is open to architects, designers, artists, and creative thinkers worldwide. Participants can enter individually or in teams, with a maximum of four members per team. Interdisciplinary teams are also encouraged.

2. What are the key elements of the building program that participants need to consider in their designs?

- Participants are tasked with designing a residential dwelling for the year 2124, considering elements such as living spaces, bedrooms, kitchen, bathrooms, and other essential components of a contemporary home. They are also encouraged to explore cutting-edge technologies, automation, and spaces that promote well-being and connectivity within the family unit.

3. Can participants choose any location for their design, and what site information should be provided?

- Yes, participants have the freedom to choose any location, including urban, suburban, rural, or futuristic environments. They need to provide detailed site information, including geographical, climatic, and topographical conditions, as well as any specific contextual factors that influenced their design.

4. Are there registration fees, and what are the discounts available?

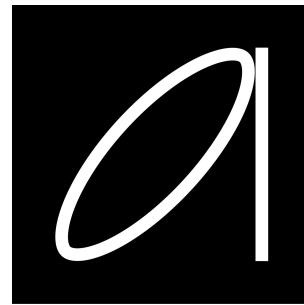

- Yes, there are registration fees based on different registration periods. Architecture student groups receive discounts of 10% for a minimum of 5 participants and 20% for a minimum of 15 participants from the same institution.

5. How can I contact the organizers for more information?

- Contact details for the organizers and sponsors are provided in the competition brief. Please refer to the "Contact Details" section for the relevant information.

REGISTRATION RELATED FAQ's ARE ON THE ONLINE BRIEF.
